Interest the discussion relative to blue laws and Puritanism in the columns of The Bulletin.

I do not wish to enter into said discussion, but I do wish to ask the young men and women of good "Old Norwich," to read, to study, to analyze the history and biography of those old Puritans and their descendants, and they will reach the conclusion that the trend of the teachings of those sturdy, substantial, rind and God-fearing men and women the was and ever has been Toward iruth and morality, toward Christianity and education, toward true manhood and womanhood, teward Almighty God. They never believed, they never taught "that liberty meant libertism."

After aimost seventy years of life, I have teached the conclusion that if many of the people who talk with so much dynamic pathos about liberty of conscinge, would acceptant if they, themselves, really have any conscience to be troubled with, it would be much better for mire and honest gavernment.

Toward men and woman follow the reachings, mellowed by Experiences of the ridiculed Puritans and their descendants and you will neither bankrupt yuntaelf ner your country, either in words or finances.
